The Seven Hermetic Principles were written 2500 BC by Hermes Trismegistus, before the time of Moses and Jesus, around the time of Abraham. These seven principles are simple keys to the mysteries of matter-energy, spirit-mind and consciousness. They can open the gateways through which a profound transformation of conscious life becomes possible. *The Law of Attraction* is based on the Hermetic Principles.

This workshop will outline the Principles in detail and lay the foundation in using them to transform your life.

Cost: \$35
